Hospex

Hospex is the initiative of Trithvam Integrus, a company that specialises in managing Health and Medical Fair Events. Hospex is solely focused on digital health, healthcare and organising conferences for the medical industry by a group of doctors.

HOSPEX 2025 is the only Medical & Healthcare Exhibition in Kerala targeting Hospitals, Other Healthcare organisations, Medical Device Manufacturers, Pharmaceutical Manufacturers, Startups, Innovators in Health Tech and Med tech space.

The core focus of HOSPEX Healthcare Expo 2025 (Fourth Edition) is Medical Knowledge dissemination thereby hosts multitude of conferences focused on the futuristic trends in the medical industry. These conferences provide attendees with the opportunity to learn about new products and technologies, network with other professionals in the field, and stay up-to-date on the recent and futuristic developments in the industry (<https://hospex.in/>)

IMA

The Indian Medical Association (IMA) Innovation & Entrepreneurship Committee focuses on integrating technology and innovation into medical practice and healthcare delivery. It aims to enhance communication between doctors and patients, improve healthcare management, and promote the use of digital tools in the profession. The committee also works on issues related to medical ethics, research, and public health.

SMART Hospitals

SMART Hospitals is a Conference initiative of Healthcare Events, that creates connected conversations in the healthcare sector after identifying the changing needs of the industry and the evolution taking place within and outside the industry that would have an impact on the healthcare businesses.

(<https://knowledge-healthcare.events/>)

QAI

Quality and Accreditation Institute (QAI) is an International Accreditation Body that provides accreditation/ certification, education, training and quality improvement activities to healthcare organisations, conformity assessment bodies (medical/ testing/ calibration labs/biobank, PTP/ RMP/ Inspection Bodies). QAI provides a platform to stakeholders including professionals and organisations, associated with quality in any way, to share their wisdom and knowledge in order to make healthcare services delivering better outcomes.

QAI is closely working with stakeholders including Government agencies to support accredited healthcare facilities/CABs in terms of empanelment and other benefits. (<https://qai.org.in/>)

Conference Objective :

The AI Conference in Healthcare at HOSPEX 2025 in Kochi, scheduled from August 22nd to 24th 2025, offers a unique and vital opportunity for medical professionals, other key healthcare stakeholders, to engage with the transformative potential of Artificial Intelligence in healthcare. With a focused "AI in Healthcare" conclave, the event is specifically designed to address the pressing questions and practical applications of AI from a clinician's perspective.

By attending, you will gain insights into:

- **Bridging the Gap:** Learn how AI can be a collaborative force in both public and private health sectors, helping to create integrated care models that lead to better patient outcomes.
- **Empowering Patients and Communities:** Explore the role of AI in preventive care, from early screening to community engagement, and discover how these technologies can empower individuals to take proactive steps for their health.
- **Enhancing the Patient Experience:** Understand how AI tools can improve patient education and satisfaction, bringing digital literacy and engagement to the forefront of care.
- **Staying Ahead in Research:** Get a clear picture of what clinicians need to know about AI's impact on clinical research and drug development, connecting your practice to the cutting edge of medical innovation.
- **Transforming Your Practice:** Discover how AI can act as a "clinical co-pilot," transforming the health workforce and medical education, and fostering a collaborative environment between human expertise and technological advancement.

This conference is not just an opportunity to learn; it is a platform to network with peers, industry experts, and researchers. By participating, you will be at the forefront of the conversation, shaping the future of medicine and ensuring that the integration of AI is done with the clinician and patient at its core.

Do not miss this chance to equip yourself with the knowledge and connections needed to navigate the future of healthcare.

Target Audience :

- Medical Professionals, Healthcare Professionals from Hospitals and other Healthcare organisations
- Faculty, Students from Medical Colleges
- HealthTech, MedTech Professionals , Healthcare IT Professionals, Digital Health Teams
